How to Make

Materials:

- Different Color Paint
- Paper Plate
- Crayons
- Paper

Directions:

1. Ask your grown up if you can use paint, paper plate, crayons, and paper.
2. Put the paint on the paper plate in different areas, so the colors do not blend.
3. *Making a Dragonfly:*
 - a. With the help of your grownup, place one finger in a color and then place it firmly on the paper.
 - b. Then using a different paint color, add three fingerprints under the first color.
 - c. Take your crayon and add wings and antennas to make a dragonfly.
4. *Making an Ant:*
 - a. With the help of your grownup, place one finger in a color and then place firmly on the paper.
 - b. Add two more fingerprints connected to the first.
 - c. Take your crayon and add feet and antennas to make an ant.
5. *Making a Caterpillar:*
 - a. With the help of your grownup, place one finger in a color and then place firmly on the paper.
 - b. Using a different paint color, add six fingerprints next to the first dot.
 - c. The dots can make a wave shape to make a caterpillar.
6. *Making a Bee:*
 - a. With the help of your grownup, place one finger in a color and place firmly on the paper.
 - b. Using your crayon add antennas and wings to make a bee.
