

# “Learning Together through Television”

## On-Line Course for Educators & Childcare Providers

This 5-hour multimedia course is designed for early childhood educators who want to develop the proper use of media in the classroom.

Learn how to turn television viewing into an active (versus a passive) experience!

Learning together through television is grounded in the study of social, emotional, and cognitive development of the child. Learn how to use television to motivate and teach!

This course will help teachers take practical ideas and turn them into lessons that reinforce TV viewing with book reading and hands on activities.

This course is facilitated by a TQAS approved trainer!

# Only \$15

### Course Objectives:

- How to build and incorporate the learning triangle in your classroom
- What media literacy is and how it pertains to your role as a teacher or child care provider
- How to expand on what children watch on television
- How to make television viewing a tool in your classroom
- How to match TV program content and activities with individual classroom learning goals

*Awarding 5 Act 48 Hours & 5 DPW Hours. Please visit the Q-Campus section of [WQLN.org/education](http://WQLN.org/education).*

This WQLN Q-Campus course is designed for educators and childcare providers in need of Act 48 and DPW training. Unlike traditional face-to-face training which require giving up evenings or weekends, this interactive course allows the teacher to participate in training at a time convenient for their schedule. Study from home, at work, or during your lunch-break!

This course provides a multi-media mixture of video\*, PowerPoint lessons, scrolling text, additional resources and activities. Participants are instructed by the course leader on how to proceed through the on-line course and how to best utilize resources. The course can be accessed through any Internet connection, on any compatible computer.

*\*Q-Campus on-line courses have the unique ability to address the needs learners with either dial-up OR broadband Internet access. This unique feature benefits those who normally are restricted from participating in video-based online training due to dial-up access or network administrator restrictions on high bandwidth streaming.*
