Miss Sarah’s Learning at Home Activity
My Toothbrush

Related Language Arts Lesson November 29, 2021 on WQLN PBS

How to Make

Materials:
- Colored construction paper
- White construction paper
- Scissors
- Glue or tape
- Markers, crayons, etc.

Directions:
1. Using your colored construction paper, draw and cut out a toothbrush shape.
2. Using your white construction paper, cut out a square to fit the toothbrush.
3. Cut slices into the square for teeth.
4. Cut out two circles for eyes.
5. Glue or tape teeth and eyes to the toothbrush.
6. Decorate as desired.
Ms. Heather’s Learning at Home Activity
Paper Salad

Related Math Lesson November 30, 2021 on WQLN PBS

How to Make

Materials:
- Paper
- Paper plate (if available)
- Scissors
- Glue

Directions:
1. Match the colors of your paper to the vegetables you want to make for your salad. If you don’t have colored paper, you can color your paper the color of that salad item.
2. Cut out pieces of paper into shapes that represent the vegetables you want in your salad.
3. Draw a large paper plate, or use an actual paper plate.
4. Glue the paper vegetables onto your paper plate.
5. Discuss the healthy choices for your salad, the color they are, and why they are good for your body.
6. If you’d like, make your own real salad that you can eat for your next meal. Discuss the healthy vegetables in your salad.

Ms. Valerie’s Learning at Home Activity
Brush Your Egg (and Your Teeth!)

Related Science Lesson December 1, 2021 on WQLN PBS

How to Make

Materials:
• White eggs (hard boiled if desired)
• Various liquids
• Clear cups or jars
• Old toothbrush
• Toothpaste
• Bowl of water

Directions:
1. Talk about how the shell of an egg is much like the enamel on our teeth.
2. Put one white egg in each of the cups.
3. Pour a different liquid over each egg. Some liquid ideas: soda, juice, vinegar, water, milk, etc. Vinegar will cause the most dramatic change.
4. Observe and allow to sit overnight.
5. Check the eggs to see what happened to each of the eggshells.
6. Try using the old toothbrush and toothpaste to gently brush some of the stain off one or more of the eggs.
7. Discuss how leaving sugary drinks, other drinks, or foods on your teeth can affect them just like the eggs. Talk about how to take care of your teeth by brushing at least two times a day, especially after eating or drinking sugary items.

*Grownups, you may want to hard boil the eggs ahead of time if you are concerned about breaking them. Raw eggs will work fine for this experiment. If you would like to use the eggs for eating after the experiment, be sure to refrigerate the experiment. You should be able to use all of the eggs except the vinegar egg.
Ms. Chelsea’s Learning at Home Activity
Airplane

Related Social Studies Lesson December 2, 2021 on WQLN PBS

How to Make

Materials:
- Small white square piece of paper
- Small rectangle piece of paper
- Black marker
- Straw
- Scissors
- Glue

Directions:
1. Hold your straw in one hand.
2. Wrap your small square piece of paper around the top of the straw.
3. Fold a small part of the paper over the top of your straw. You may need to glue it down.
4. Glue your small rectangle piece of paper under the wrapped paper square. These will be the wings of your plane.
5. Draw windows on your plane with your marker.
6. Your plane is finished! Blow through your straw and watch your airplane fly.
