Cooking Up Pizza Sculptures

Related **Art Lesson** November 12, 2021 on WQLN PBS

How to Make

Materials:

- $\frac{1}{2}$ c salt
- $\frac{1}{2}$ c flour
- $\frac{1}{3}$ c water
- Messy mats
- Mixing bowls, spoons, and measuring cups
- Paint and water (optional)

Directions:

1. Make salt dough. Mix $\frac{1}{2}$ c flour, $\frac{1}{2}$ c salt, and $\frac{1}{3}$ c water in a bowl. Mix together to form dough.
2. Create a sculpture of a pizza. Start with slabs (flat pieces of clay) for the dough and sauce. Then create toppings using coils and spheres. Place dough pieces together to create a pizza. What kind of toppings can you create for your pizza? Think about pepperoni, sausage, pineapple, onions, green peppers, cheese, and more.
3. If you have paint, paint your pizza using a variety of colors.
