

## Ms. Chelsea's Learning at Home Activity Chameleon Painting

Related **Science Lesson** December 29, 2021 on WQLN PBS

### How to Make

#### Materials:

- 2 pieces of white paper
- Black marker
- Red, yellow, and blue paint
- Paint brush(es)

#### Directions:

1. Draw a chameleon on one of your white pieces of paper.
2. Squeeze/pour a small amount of each of your paint colors on your other piece of white paper.
3. With your paint brush, dab a little of one color onto a clean spot on your paint paper. Mix a little of another color in with that first dab.
4. Use the color you have just created to paint part of your chameleon.
5. Repeat this process with different combinations of your paint until you have all the colors you want and your chameleon is completely painted.
