

Miss Julie's Learning at Home Activity

Fingerprint Creatures

Related **Special Education Lesson** November 5, 2021 on WQLN PBS

How to Make

Materials:

- White paper
- Stamp pads of different colors
- Black magic marker
- Paperclip

Directions:

1. Put your finger on a stamp pad color of your choice. Make sure the ink covers where your fingerprint is on your finger.
2. Press your finger onto the white paper. A good way to do this is to roll your finger so you can see the lines of your fingerprint better.
3. Continue this process using different colors and different fingers.
4. Allow to dry.
5. Look your fingerprints over and see what kind of creatures you can draw onto your fingerprints with your black marker.
