

## Miss Britney's Learning at Home Activity Shape Vehicles

Related Math Lesson Airs February 16, 2021 on WQLN PBS

### How to Make

#### Materials:

- Crayons or Markers
- Circle (jar, tape roll)
- Square (tissue box, coaster)
- Rectangle (box, crayon box)
- Scrap paper
- Other shapes you can find around the house

#### Directions:

1. Ask your grown-up if you can use supplies that are in the shape of a circle, square, and a rectangle.
2. Once you have all your shapes, you may have more than one type of shape.
3. Next, place the square shape on your scrap paper towards the left half of your paper. Grab a crayon and trace around the square. Take the square off the paper.
4. Place the rectangle shape connected to the bottom right side of the square, grab a crayon and trace around the rectangle. Remove the rectangle from the paper.
5. Place the circle shape at the bottom left of the square and trace around the circle with a crayon. Move the circle to the bottom right of the rectangle and trace the circle with the crayon. Remove the circle from the paper.
6. Now you have the outline of a shape truck. Color and add details, or even a background to your picture!
7. Once you finish your shape truck, you can use other shapes around your home to create different vehicles. You could make an airplane, a boat, or even a train! The options are endless!
