

Miss Tara's Learning at Home Activity

School Bus Craft

Related Science Lesson Airs February 17, 2021 on WQLN PBS

How to Make

MATERIALS:

1. Milk carton (empty, cleaned, and dried)
2. Scissors
3. Hole punch
4. Glue and stapler
5. Yellow construction paper
6. Black and red markers or crayons
7. Two straws
8. Four pieces of cardboard

DIRECTIONS:

1. Open the spout end of the carton and cut one side in half. Tuck one side down into the carton and staple the two 1/2 pieces together to form the front of the bus.
2. Punch four holes down near the bottom of the bus where wheels will go.
3. Cut a slit down one side of the carton and cut off one side without cutting the base or the top. That is the bottom of the bus.
4. Trace the outside of the carton onto yellow paper and cut out.
5. Draw windows, stripes, headlights, stop signs, and the word bus onto the yellow paper.
6. Glue the prepared paper onto the carton.
7. Punch holes through the yellow paper, where the paper goes over the milk carton holes.
8. Draw four circles onto a piece of cardboard the size of wheels and cut out. Hole punch the center of each wheel.
9. Slide straw through the holes and attach the wheels.
10. Put a fun toy in the passenger seat of the bus and have fun!!
