3. Let the paint dry!
4. Once the paint is completely dry, cut a piece of wax paper that is bigger than the hole at the end of the toilet paper roll
5. Then wrap it around the end of the toilet paper roll.
6. Secure the wax paper with a rubber band.
7. Now blow into your Kazoo and see what happens to the wax paper. Did it move?
8. You now have your very own Kazoo and you can make loud or soft sounds. You can also create your own music!
