Miss Britney’s Learning at Home Activity

Dandelion Craft

How to Make

Materials:

- Cotton Ball
- 6 Q-Tips
- Green Pipe Cleaner (stem)
- Glue
- Crayons

Directions:

1. Ask your grown up if they will help you find the materials above.
2. The first step is to fluff the cotton ball out to make the center of the dandelion.
3. Grab about (6) Q-Tips to use for around the cotton ball.
4. You will then break the Q-Tip in half using your hands. Make sure your grown-up is present to help break the Q-Tips.
5. After all the Q-Tips are broken, you will glue the cotton part of the Q-Tip to the paper. Place the stem portion of the Q-tip as close to the cotton ball as possible.
6. Place the Q-Tips around the cotton ball to form a full dandelion.
7. Once all the Q-Tips are glued, glue the green stem to the bottom of the dandelion.
8. If you do not have a green pipe cleaner, you can use a green straw or make a line with a green marker or crayon.
9. You can then add the sun, grass, soil, or roots to your picture!
