Ms. Valerie's Learning at Home Activity

Honeybee Puppet

Related Social Studies Lesson Airs May 27, 2021 on WQLN PBS

How to Make

Materials:

- Paper tube
- Glue dots (or any type of glue you have)
- Yellow paper
- Black paper
- White paper
- Scissors, marker
- Wiggly eyes

Directions:

1. Cut the yellow paper to fit around the tube and glue to the tube.
2. Cut strips of black paper to make stripes and glue around the tube.
3. Flatten the "head" end of the tube and glue shut. Round the corners with scissors.
4. Attach wiggly eyes with glue (or draw eyes)
5. Draw a mouth
6. Cut out small strips of black paper for 2 antennae and 6 legs. Glue on and bend to make them stick up/down.
7. Fold the white paper to and cut out wings. Glue in the middle of the bee and bend up.

*Pretend your bee puppet is pollinating your flowers or drinking water from a tray

**Help bees by growing native flowers, using fewer chemicals (or none!), and making a bee drinking station out of a shallow dish or plate, put rocks in the water on the plate to give the bees a place to rest as they drink.
