

The Little Grape

By Audrey Wurst

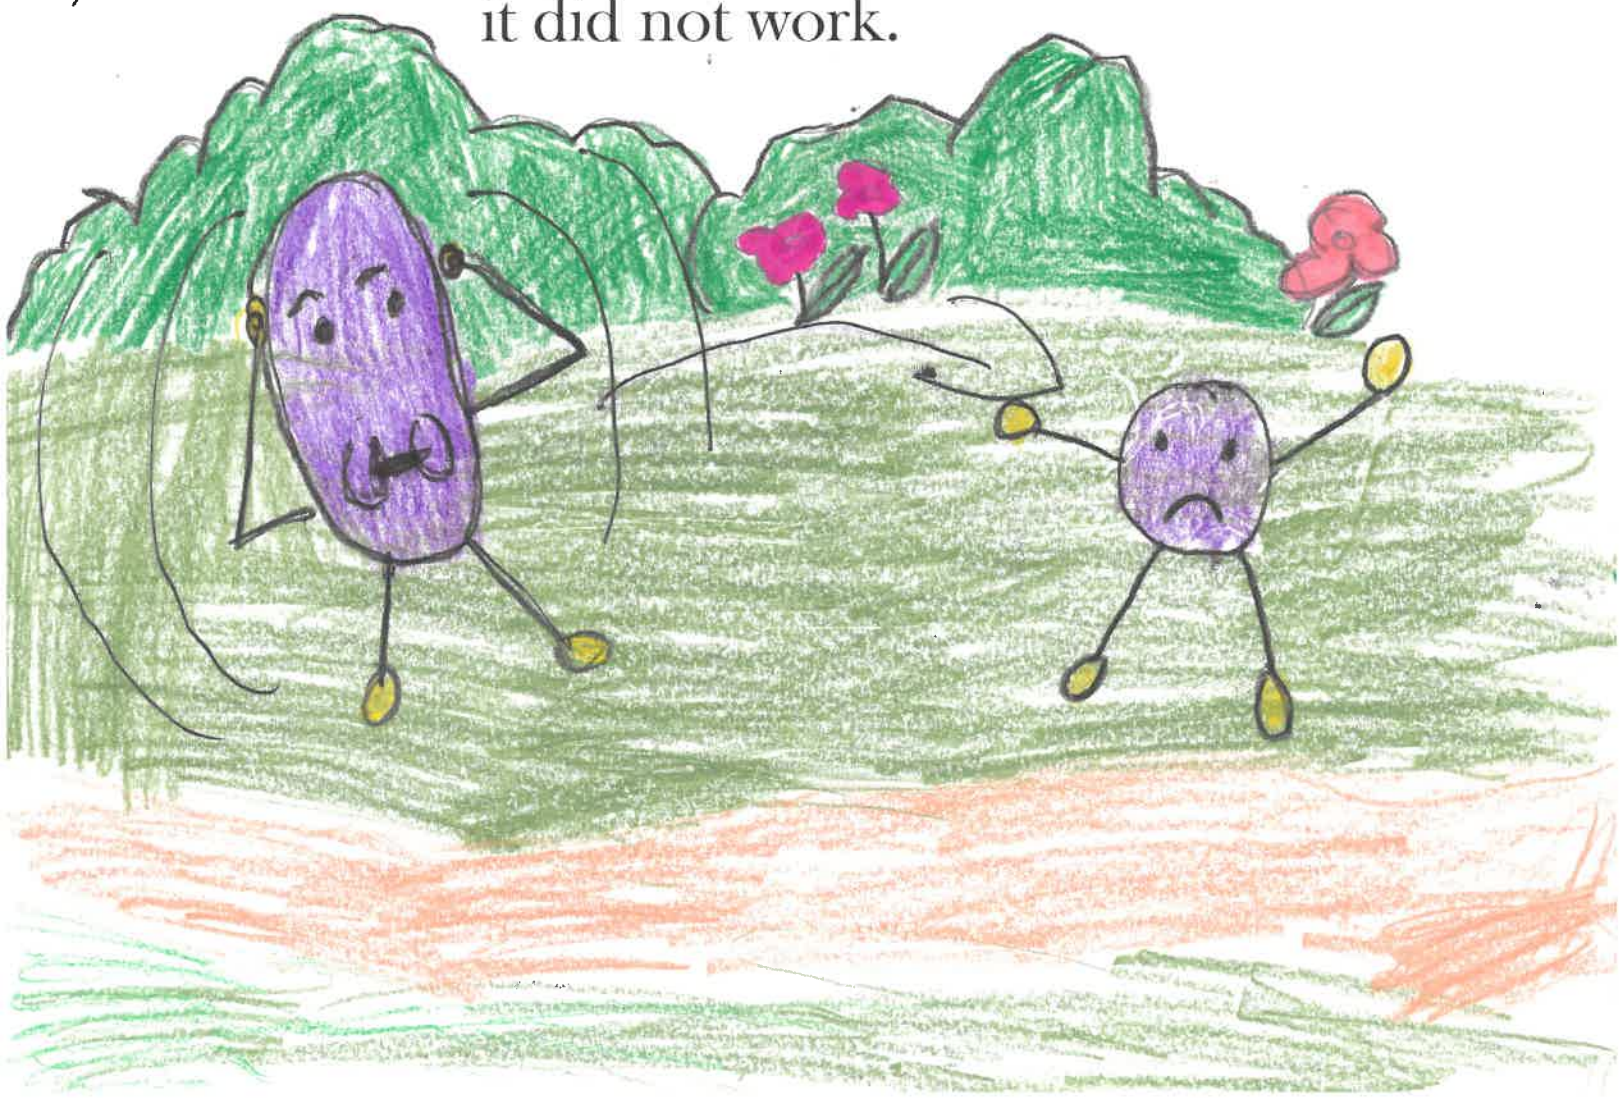

One sunny day, there was a little Grape who was walking through the garden. He saw a big watermelon and wished he could be as big as the melon.

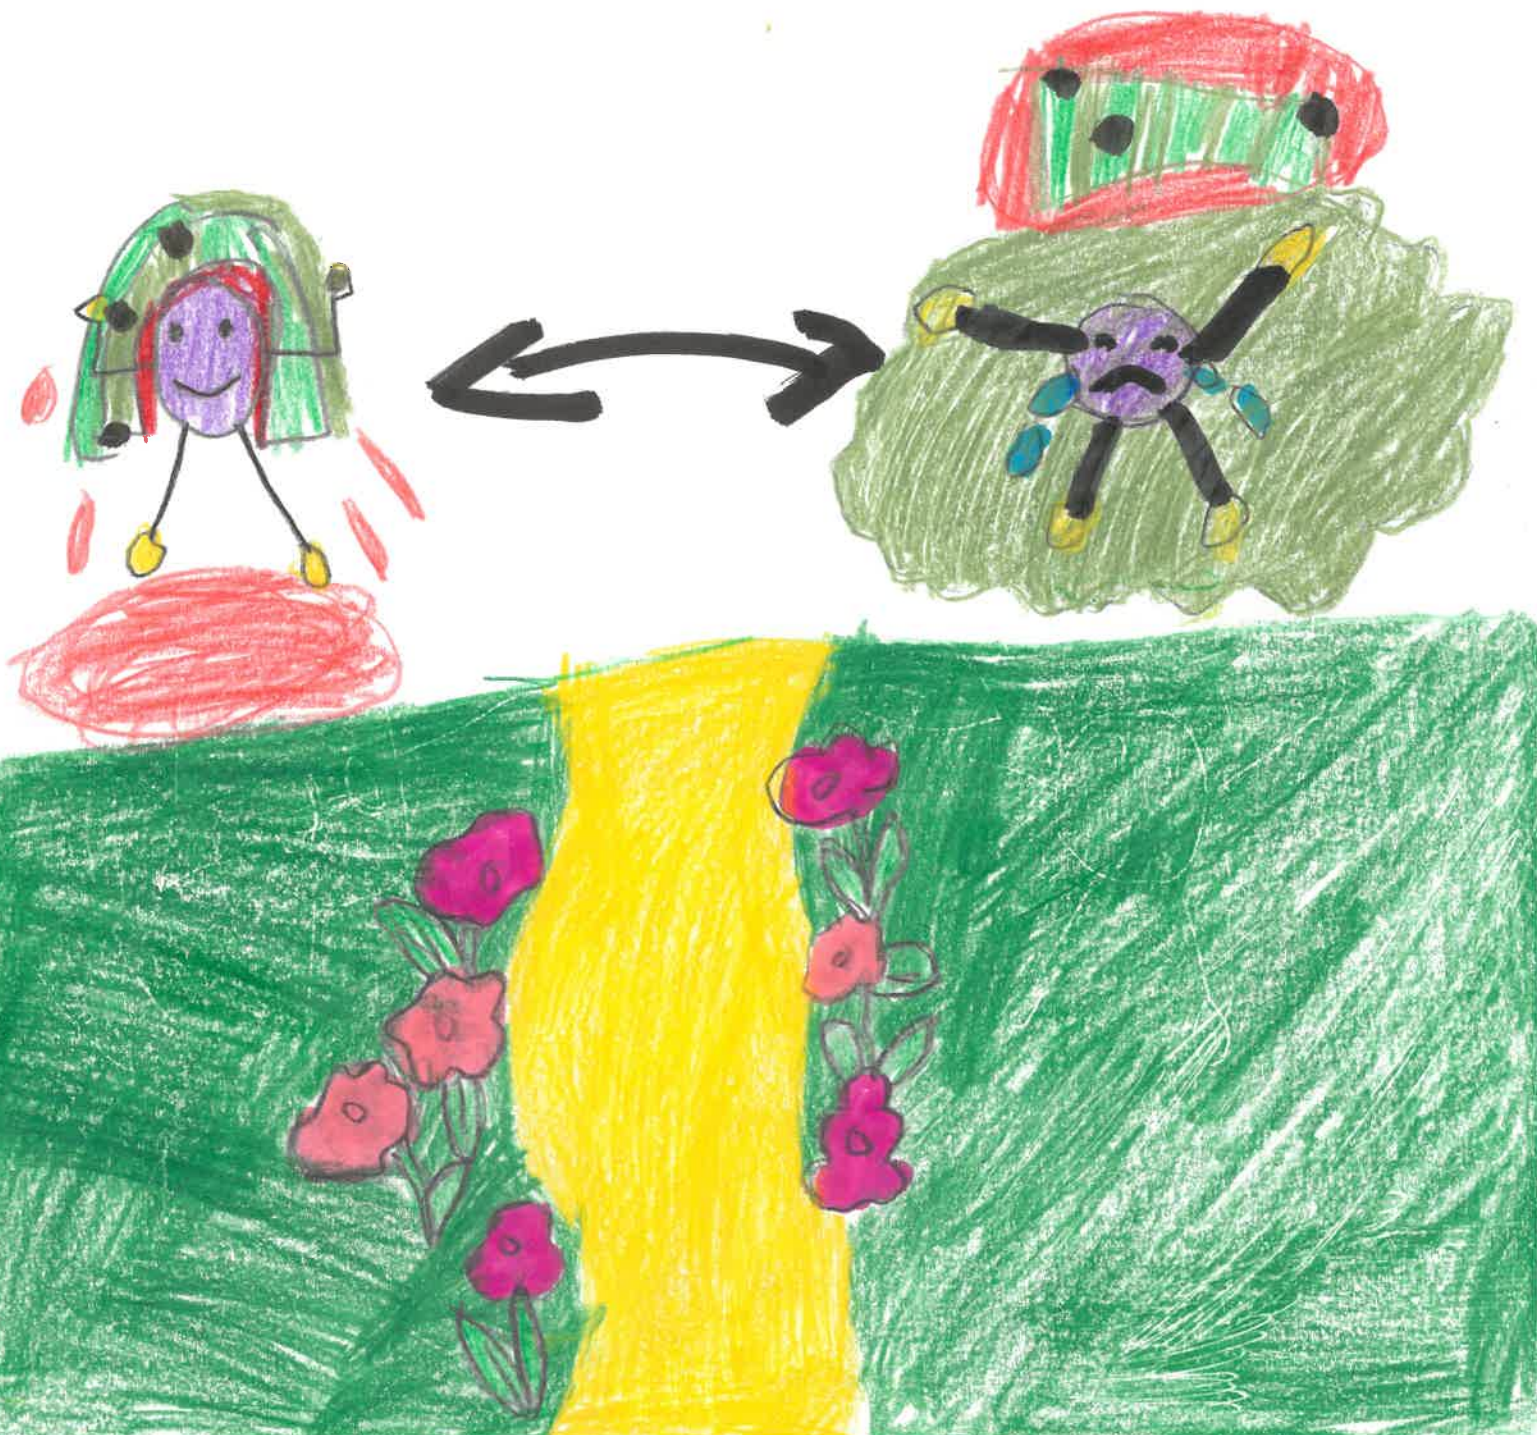

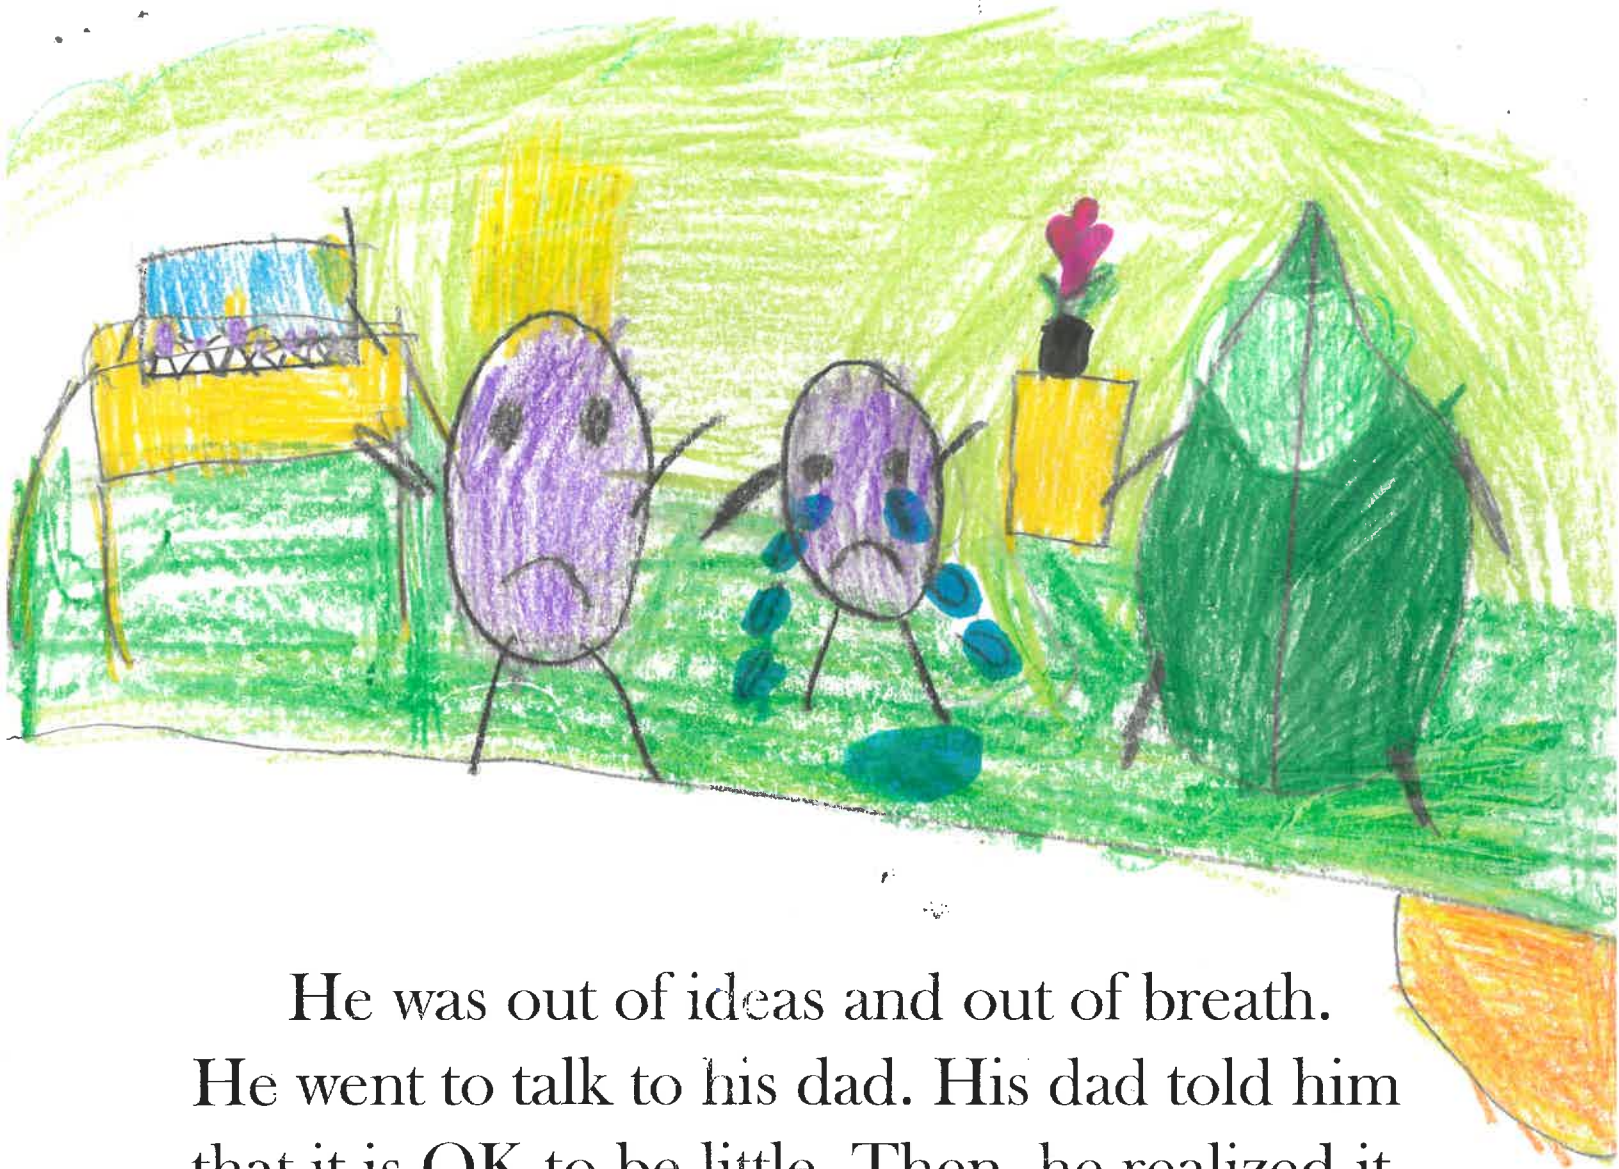

He kept walking until he had an idea. First, he tried to puff up his head so it would get bigger, but it did not work.

Then, he tried to put a rotten piece of melon on his head, but the extra weight made him fall into the bushes.

He was out of ideas and out of breath.
He went to talk to his dad. His dad told him
that it is OK to be little. Then, he realized it
IS OK to be little! The grape lived happily
ever after.

The End
