

# The Stuck Ball and the Pickle Solution

By Lucas Lobdell

**Once upon a time there were three dudes and they loved playing catch with a ball.**

**One day the ball got stuck in a tree. They did not know how to get it down.**

**So, they got their thinking  
pickles out and they ate them.  
Now, they had a plan. They got a  
ladder and got the ball down.**

**The next day, they got another ball stuck in the tree. They went to get the ladder, but it was gone. They got their thinking pickles out, but they were gone, too!**

**What were they going to do?  
They did not know what to do.  
While they were thinking, they  
saw the ladder walking towards  
them. It had come to life!**

**The ladder hugged them. The ladder leaned on the tree. They climbed up the ladder and got the ball down.**

**They played catch again, this time with the ladder! The ladder was good at playing catch!**

**The End**
